### For spasticity of the limbs, answer the following:

Select if the patient's limb spasticity is related to any of the following conditions:

- Brain injury
- Cerebral palsy
- Demyelinating disease of the central nervous system (CNS)
- Hemiplegia or paraplegia
- Multiple sclerosis
- Spinal cord injury

### For strabismus, answer the following:

Select if the patient has the following symptoms:

- Abnormal head turn
- Asthenopia
- Diplopia
- Impairment of peripheral vision due to esotropia

### Quantity Limit Requests:

Is there a high risk of significant adverse clinical outcome with medication change or dosage change?  Yes  No

Is the requested quantity and dose within FDA approved maximum dosing limits or supported by peer-reviewed medical literature, accepted standards of medical practice and/or medical compendia?  Yes  No

If **yes**, please specify: \_\_\_\_\_

Are there any other comments, diagnoses, symptoms, medications tried or failed, and/or any other information the physician feels is important to this review?
